

SYNTHETIC TRAINING DOCUMENT - NOT A REAL CUSTOMER OR SUPPLIER FILE

CLIENT SUBMISSION

Daily Gentle Cleanser

CASE ID

SG-FC-001

CLIENT ALIAS

Pilot Brand A

TARGET MARKET

Singapore

PRODUCT TYPE

Rinse-off facial cleanser

DOCUMENT VERSION

Formula sheet v3

SUBMISSION DATE

12 Sep 2026

Finished-product formula

Raw material	Supplier	Use level	Declared identity	Evidence
Aqua	-	70.0%	Aqua	Formula sheet
Cocamidopropyl Betaine solution	Supplier B	20.0%	Mapping to confirm	Specification v2.1
Glycerin	Supplier C	5.0%	Glycerin	Specification
Sodium Chloride	Supplier D	3.5%	Sodium Chloride	Specification
Phenoxyethanol	Supplier E	0.8%	Phenoxyethanol	Specification
Xanthan Gum	Supplier F	0.5%	Xanthan Gum	Specification
Fragrance F-17	Supplier G	0.2%	Fragrance	SDS only
TOTAL		100.0%		

Reviewer note: the formula total is 100.0%, but the fragrance row cites an SDS only. A complete component composition has not been supplied, so component-level screening must remain open.

Safety Data Sheet

VERSION

SDS 2.0 - 08 Sep 2026

PRODUCT IDENTIFIER

Fragrance F-17

INTENDED USE

Cosmetic fragrance compound

Section 3 - Composition / information on ingredients

Component description	CAS / identifier	Concentration
Fragrance mixture	Proprietary	100%
Individual fragrance components	Not disclosed in this SDS	Not disclosed

Source limitation: this synthetic SDS identifies the commercial mixture but does not provide its component-level composition. The prototype must not infer undisclosed ingredients or produce a pass/fail conclusion from this document alone.

Document-purpose note

This page exists only to demonstrate evidence traceability and missing-data handling in UI v1. It is not authored by a real supplier and must not be used for safety, transport or regulatory decisions.

Cocamidopropyl Betaine Solution

SPECIFICATION

Specification v2.1

ISSUE DATE

10 Sep 2026

TRADE NAME

CAPB Solution B-30

DECLARED INCI

Cocamidopropyl Betaine solution

Declared specification

Property	Declared value	Review status
Appearance	Clear to pale-yellow liquid	Recorded
Active matter	29.0% - 31.0%	Recorded
pH (10% solution)	5.0 - 6.0	Recorded
Full component breakdown	Separate composition statement	Not supplied
Impurity information	Refer to supplier dossier	Not supplied

Reviewer action required: retain the supplier trade name and declared wording until the separate composition statement is obtained. Do not treat 20.0% raw-material use as 20.0% of a single component in the finished product.
